PATH / TBRA Reporting: (only TBRA sites use this form)

Client Identifier	Date PATH initially outreached	Date applied for TBRA	Date Acquired TBRA	Date client left TBRA	PATH Services Provided to Client THIS QUARTER	Costs associated with TBRA this quarter	Mainstream Service Connections Made to Date	Notes

Keep a log of all clients (using unique identifier) in TBRA program with the above table. This table is small, so you may want to create an excel spreadsheet for this information where quarterly information is identifiable for services this quarter and costs this quarter). Clients remain on log during entire pilot. If client returns to program after leaving, indicate by starting a new row for client and put (2) after their unique identifier. Identifier and dates are permanent entries. Services, costs and notes are to be restarted each quarter with only that quarter's activities reported. Data for TBRA clients is to be included in the standard PATH quarterly report as well as on this spreadsheet.

Date initially outreached: Date PATH first met this client.

Date applied for TBRA: Date application for TBRA was filed.

Date acquired TBRA: Date client spent first night in housing.

Date client left TBRA: Date of exit after acquiring TBRA.

PATH Services Provided to client this quarter: List supportive services provided, using PATH definitions attached.

Costs Associated with TBRA: List costs taken by PATH this quarter (ex: utility turn on fee, acquiring identification documents, purchase furniture, moving costs, etc.)

Mainstream Service Connections Made to Date: Keep a running log of successful mainstream service connections made for TBRA clients. Be sure to document mental health and substance abuse services, monetary benefits, insurance, and food assistance.

Include in notes column:
- If client denied TBRA, identify reason.
- If client withdraws application for TBRA, indicate reason (ex: client found other housing, client not interested in monitoring)
- IF client leaves TBRA after acquiring, explain circumstance and new housing status.

PATH TBRA sites will also attach a quarterly narrative summary describing how the pilot is progressing. Describe partnership developments and successes as well as barriers and challenges.
